METALLURGIA

THE BRITISH JOURNAL OF METALS

Index to Vol. X.

May, 1934—October, 1934.

KENNEDY PRESS LIMITED
21, Albion Street
GAYTHORN, MANCHESTER 1

INDEX

Page

A

Alloy Steel To-day. By Prof. D. Hanson, D.Sc. 75–78
Aluminium-clad Duralumin 102
Aluminium, New type Installation Equipment Built of Arc-welded. By A. F. Davis 111
American Society for Testing Materials 119–120
Zinc Alloy Die Castings. E. A. Anderson and G. L. Werley .. 119
Some Factors Affecting Strain Measurements in Tests of Metals. R. L. Templin..... 119
A Note on Frictional Resistance of Steel and Brass in Shrink Fits. W. H. Swanger..... 119
Investigation of the Effect of Size and Shape of Test Specimens. Messrs. Lyse and Keyser 119
Blue Brittleness and Stability of Sheets Against Changes Due to Ageing. R. L. Kenyon and R. S. Burns 120
Interpretation of Creep Tests. P. G. McVetty..... 120
Creep Properties of 5% Chromium and 0.5% Molybdenum Steel Tubes. Messrs. Cross and Johnson 120
Ageing Embrittlement of 4 to 6% Chromium Steel. Messrs. H. H. Wilton and E. S. Dixon.. .. 120
Alpha-Iron Steels, Properties of Non-Hardenable. Mr. S. H. Rees 149
Aluminium Silicon Alloy "B"—New British Chemical Standard 125
Atlantic Liner No. 534, The New.. 139
Arc-welded Pipe Lines.....157–158
Aluminium and Its Alloys for Protection and Decoration, The Anodic Oxidation of.....173–176
Automobile Industry, Progress in the 181–184
Alloy Developed in U.S.S.R.Hard-metal 186

B

Blast-furnace Gas Firing..... 8
Brasses from X-Ray Data, Crystal Densities of Industrial. Prof. E. A. Owen and Dr. L. Pickup... 160
Blue Brittleness and Stability of Sheets Against Changes Due to Ageing. R. L. Kenyon. R. S. Burns 120
British Standard Chemical Lead... 36
Blast-furnace Practice 90
Blending Coke Breeze for Steam Generation 97
Blast-furnace of Magnitogorsk, Re-opening of First 122
Boiler Drum Forgings 152
Backbone of the Mining Industry, The. By G. G. Ommanney...155–157
Barium Flux in the Electric Furnace, The Use of 178

C

Continental Iron and Steel Works 133–138
Canadian Sulphur Developments... 138
Carbon-resistance Furnace, A Ten-kilowatt Granular. By J. W. Cuthbertson, M.Sc. 141–147

Page

Coal, Roll Crusher for..... 158
Cunard-White Star Liner, "Queen Mary," New 165–170
Copper at Prescot, Fire-refining..13–16
Copper and Copper-rich Alloys, Elongation Values of. Dr. Maurice Cook and Mr. Eustace C. Larke 161
Copper Wires, Crystal Re-orientation on Heating Drawn. Mr. G. S. Farnham and Dr. Hugh O'Neill.. 161
Conductivities of Metals and Alloys, Thermal and Electrical. By J. W. Donaldson, D.Sc. 17–19
Coke Oven Gas, The Utilisation of 19–21
Corrosion of Zinc in Chloride Solutions. By C. W. Borgmann and U. R. Evans 22–23
Crushing Methods, Modern..... 29
Control of Foundry Moulding Sands, Recommended methods for Testing and 29
Construction of the Mersey Tunnel 31–35
Chromium Steel, Ageing Embrittlement of 4 to 6%. Messrs. H. M. Wilton and E. S. Dixon..... 120
Changes Due to Ageing Blue Brittleness and Stability of Sheets Against. R. L. Kenyon. R. S. Burns 120
Creep Tests, Interpretation of. P. G. McVetty..... 120
Creep Properties of 5% Chromium and 0.5% Molybdenum Steel Tubes. Messrs. Cross and Johnson 120
Cast Iron, Effect of Chemical Composition Upon the Wear of..... 35
Corrosion of Metals by Phenols.... 36
Copper, Magnesium-Chromium as a Deoxidizer of. By Charles Vickers 43
Cast Iron in the Manufacture of Textile Machinery, The Use of High-duty. M. A. Roeder..... 44
Classification, Properties and Utilisation of Non-ferrous Scrap Metals and Alloys, The ..47–48, 79–81, 117–118
Copper Industry, The United States 69–70
Corrosion Resistance of Metals in Wire Making 103

D

Developments in Lead, Recent.... 1–4
Deoxodizer of Copper, Magnesium-Chromium as A. By Charles Vickers 43
Dilute Acid Media, The Electrochemical Behaviour of the Tin-Iron Couple in..... 89
Duralumin, Aluminium-clad..... 102
Developments, Canadian Sulphur.. 138
Duralumin, Influence of Pickling on the Fatigue-strength of. Messrs. H. Sutton and W. J. Taylor..... 160
Die Castings, Zinc Alloy. E. A. Anderson. G. L. Werley 119

E

Effect of Size and Shape to Test Specimens, Investigation of the. Layse and Keyser 119
Electro-chemical Society, The....23–24
Effect of Chemical Composition upon the Wear of Cast Iron..... 35

Page

Electrochemical Behaviour of the Tin-iron Couple in Dilute Acid Media, The 89
Effect of Impurities on Solder, The 106
Effect of Heat-treatment upon the Form of Sulphur in Steel..... 140
Electrostatic Tar Separation..... 176
Electric Furnace, The Use of Barium Flux in the..... 178
Electrochemical Metal Descaling Process, The Bullard-Dunn 186

F

Firing, Blast-furnace Gas..... 8
Fire-refining Copper at Prescot....13–15
Forgings for the New Coal Hydrogenation Plant 81
Ferrous and Non-ferrous Castings, Some Factors Influencing the Density and Soundness of.... 107–110
Fluidity of Molten Steel..... 140
Forgings, Boiler Drum 152

G

Generator, The "Velox" Steam.. 12
German Metallurgists, Association of 49–50

H

Highly Polished Metals, Reflectivity Method for Measuring Tarnishing of. Messrs. C. Kenworthy and J. M. Waldram..... 160
Hydrogenation Plant, Forgings for the New Coal 81
Heat Transference in Non-ferrous Metals in Reheating Furnaces. By G. Wagener 112–116
Heat-treatment upon the Form of Sulphur in Steel, Effect of..... 140

I

Institute of Metals. Annual Autumn Meeting in Manchester.....159–161
White Metal Bearings for Severe Service : Some General Considerations. Mr. D. J. MacNaughton.
White Bearing Metals Under Various Deformation Tests: Part I., Mr. A. S. Kenneford, Dr. Hugh O'Neill; Part II., Mr. R. Arrowsmith; Part III., Mr. H. Greenwood.
Properties of Tin Containing Small Amounts of Silver, Iron, Nickel or Copper. Prof. D. Hanson, Mr. E. J. Standford, Mr. H. Stevens.
Reflectivity Method for Measuring Tarnishing of Highly-polished Metals. Messrs. L. Kenworthy and J. M. Waldram.
The Corrosion of Tin and Its Alloys. Dr. T. P. Hoar.
Influence of Pickling on the Fatigue-strength of Duralumin. Messrs. H. Sutton, and W. J. Taylor.
Some Properties of Heavy Cold-worked Nickel. Mr. H. Quinney.

Page

Experiements in Wire-drawing. Messrs. W. E. Alkins and W. Cartwright.
Crystal Densities of Industrial Brasses from X-ray Data. Prof. E. A. Owen and Dr. L. Pickup.
Elongation Values of Copper and Copper-rich Alloys. Dr. Maurice Cook and Mr. Eustace C. Larke.
Crystal Re-orientation on Heating Drawn Copper Wires. Mr. G. S. Farnham and Dr. Hugh O'Neill.
The Deformation Lines in Alpha Brass.
Industry, Planned Re-organisation of 6–7
Iron and Steel Institute..... 39
Iron and Steel Works, Improved Working of Soviet 40
Institute of British Foundrymen, Annual Meeting of.....44–46
Oven-drying of Cores and Moulds. Mr. E. G. Fiegehen.
Recent Developments in British Synthetic Moulding Sand. Mr. John J. Sheenan.
The Use of High-duty Cast Iron in the Manufacture of Textile Machinery. M. A. Roeder.
Studies in Cast Red Brass for the Establishment of a Basic Classification of Non-ferrous Ingot Metals for Specification Purposes. Mr. C. M. Saeger.
Studies in Cast Bronzes. Mr. Francis W. Rowe.
Industrial Instruments..... 48
Iron and Steel Institute, The....51–54
Industry's Barometer 73
Iron Ores, Sintering of..... 104
Iron Ores, Size Preparation of.... 110
Installation Equipment Built of Arc-welded Aluminium, New-type. By A. F. Davis..... 111
Iron and Steel Works, Continental, 133–138
Iron and Steel Institute. Autumn Meeting in Belgium and Luxembourg 148–152
The Behaviour of Metals at Elevated Temperatures. Prof. H. Dustin.
The Chemical Resistance of Various Special Steels. Prof. A. M. Por evin, M. E. Pretet, M. H. Jolivet.
Accelerated Cracking of Mild Steel (Boiler Plate) Under Repeated Bending, Part II. Dr. C. H. M. Jenkins. Mr. W. J. West.
Some Aspects of the Fatigue Properties of Patented Steel Wire. Mr. E. T. Gill, Dr. R. Goodacre.
Influence of Silicon and Aluminium on the Resistance of Cast Iron to High Temperatures. Prof. M. H. Thipsen.
Rolling Milling Flexibility and Its Technical Realisation. Mr. Geo. A. V. Russell.
The Physical Properties of Iron-aluminium Alloys. Dr. C. Sykes and Mr. J. W. Bampfylde.
Properties of Non-hardenable Alpha-iron Steels. Mr. S. H. Rees.
Influence of Vanadium in Steels. Mr. H. H. Abram.
Blistering of Iron Oxide Scales. Mr. R. Griffiths.
Composition of Martensite. Mr. Gunner Hagg.

Page

Influence of Diffusing Elements Upon the Alpha-gamma Inversion of Iron. Mr. W. D. Jones.
The Constitution of Iron-rich Fe-A1-C. Alloys. Mr. F. R. Morral.
Interpretation of Creep Tests. P. G. McVetty..... 120
Iron-aluminium Alloys, The Physical Properties of. Dr. C. Sykes and Mr. J. W. Bampfylde 150
Iron Oxide Scales, Blistering of. Mr. R. Griffiths..... 151
Iron, Influence of Diffusing Elements Upon the Alpha-gamma Inversion of. Mr. W. D. Jones... 152
Iron-rich Fe-A1-C. Alloys, The Constitution of. Mr. F. R. Morral 152
Investigation of the Effect of Size and Shape of Test Specimens. Messrs. Leyse and Keyser..... 119

L

Lead, Recent Developments In.... 1–4
Lead, British Standard Chemical.. 36
Light Metal Alloys, Notes on the Metallography of. By A. Blumenthal, Jena. 83–85
Light Metal Alloys, New.....85–86

M

Melbourne Air Race, The..... 171
Metallurgical Applications of Vanadium..... 172
Molybdenum 178
Manganese in Straight-carbon Steels of Hardening Quality, Some Notes on. Glyn Powis.....179–180
Metals and Alloys, Thermal and Electrical Conductivities of. By J. W. Donaldson, D.Sc.....17–19
Moulding Sands, Recent Developments in British Synthetic. Mr. John J. Sheenan..... 44
Martensite, Composition of. Mr. Gunner Hagg 151
Metals at Elevated Temperatures, The Behaviour of. Prof. H. Dustin 148
Molybdenum Steel Tubes, Creep Properties of 5% Chromium and 0.5%. Messrs. Cross and Johnson 120
Modern Crushing Methods..... 29
Mersey Tunnel, Construction of the 31–35
Metals by Phenols, Corrosion of.. 36
Mersey Tunnel 38
Metallurgical Work, Pulverised Fuel for.....41–43
Magnesium-chromium as a Deoxidizer of Copper. By Charles Vickers 43
Microscopes, Two New Universal.55–56
Metallography of Light Metal Alloys, Notes on the. By A. Blumenthal, Jena.....83–85
Metal Production in Canada, Non-ferrous 99–102
Metals in Wine Making, Corrosion Resistance of 103
Molten Steel, Fluidity of..... 140
Molybdenum Die Steel, A New.... 140
Metal Periodic Fluctuations in. E. G. Herbert, B.Sc.M.I.Mech.E. 153–154
Mining Industry, The Backbone of the. G. G. Ommanney.....155–157
Metals, Some Factors Affecting Strain Measurements in Tests of. R. L. Tenplin 119–120

N

Non-destructive Tests. E. C. Rollason, M.Sc.....9–12
Nickel for Spanish Coinage..... 36
Non-ferrous Metals Research..... 39
Non-ferrous Scrap Metals and Alloys, The Classification, Properties, and Utilisation of..79–81, 117–118

Page

National Physical Laboratory, The, 71–72
Non-ferrous Metals in Re-heating Furnaces, Heat Transference In. G. Wagener..... 112–116
Non-ferrous Metal Production in Canada..... 170
Nickel, Recent Developments in the Electro-deposition of 172
Note on Frictional Resistance of Steel and Brass in Shrink Fits. W. H. Swanger..... 119
Nickel, Some Properties of Heavy Cold-worked. Mr. H. Quinney.. 160

O

Observatory on Mount Locke, New 187

P

Prescot, Fire-refining Copper at..13–15
Pulverised Fuel for Metallurgical Work. By a Special Correspondent 41–43
Production of Sponge Iron in Russia, Developing the 70
Progress in Tin Research.....121–122
Periodic Fluctuations in Metal. By E. G. Herbert, B.Sc., M.I.Mech.E., 153–154
Protection and Decoration, The Anodic Oxidation of Aluminium and Its Alloys for.....173–176
Progress in the Automobile Industry 181–184

R

Re-organisation of Industry, Planned 6–7
Resistance of Steel and Brass in Shrink Fit, Note on Frictional. W. H. Swanger 119
Results of the U.S.S.R. 1934 Plan. 147
Roll Crusher for Coal..... 158
Recent Developments in the Electro-deposition of Nickel..... 172

S

Steels, Welds in Structural..... 4
Steam Generator, The "Velox" .. 12
Society, The Electrochemical....23–24
Sands, Recommended Methods for Testing and Control of Foundry Moulding 29
Soviet Iron and Steel Works, Improved Working of..... 40
Steel, Transformation of Austenite in High-speed Shorter Process... 48
Soviet Industry, Production of.... 72
Steel Wire Ropes, Modern..... 72
Shipping and Shipbuilding..... 74
Steels To-day, Alloy. By Prof. D. Hanson, D.Sc.....75–78
Steam Generation, Blending Coke Breeze for..... 97
Sintering of Iron Ores..... 104
Solder, The Effect of Impurities on 106
Some Factors Influencing the Density and Soundness of Ferrous and Non-ferrous Castings....107–110
Size Preparation of Iron Ores.... 110
Sand-lime Bricks 116
Sulphur in Steel, Effect of Heat-treatment Upon the Form of.... 140
Scientists Discover New Resources in the U.S.S.R..... 170
Steel, Planetarium Screen in Stainless 172
Sands, Clays and Minerals..... 172
Soviet Industry, The Technical Basis of 177–178
Steels of Hardening Quality, Some Notes on Manganese in Straight Carbon. By Glyn Powis.....179–180
Some Factors Affecting Strain Measurements in Tests of Metals. R. L. Templin 119–120

Page

Steels, The Chemical Resistance of Various Special. Prof. A. M. Portevin. M. E. Pretet M. H. Jolivet 148
Steel (Boiler Plate) Under Repeated Bending, Part II., Accelerated Cracking of Mild. Dr. C. H. M. Jenkins, Mr. W. J. West..... 148
Steel Wire, Some Aspects of the Fatigue Properties of Patented. Mr. E. T. Gill Dr. R. Goodacre 149
Silicon and Aluminium on the Resistance of Cast Iron to High Temperatures, Influence of. Prof. M. H. Thipsen..... 149
Silver, Iron, Nickel or Copper, Properties of Tin Containing Small Amounts of. Prof. D. Hanson. Messrs. E. J. Sandford and H. Stevens..... 159

T

Tests, Non-destructive. By C. C. Rollason, M.Sc.....9–12
Thermal and Electrical Conductivities of Metals and Alloys. J. W. Donaldson, D.Sc.....17–19
Transformation of Austenite in High-speed Steel 40
Testing of Thin Metal Sheet and Strip..... 86
Tin-iron Couple in Dilute Acid Media, The Electrochemical Behaviour of the..... 89
Tin Consumption, World..... 90
Twenty Years After 105
Tin Research, Progress in.....121–122
Ten-kilowatt Granular Carbon-resistance Furnace, A. J. W. Cuthbertson, M.Sc. 141–147
Technical Basis of Soviet Industry, The.....177–178
Tin and Its Alloys, The Corrosion of. Dr. T. P. Hoar 159

U

Utilisation of Coke Oven Gas, The, 19–21
U.S.S.R. 1934 Plan, Results of the.. 147

V

"Velox," Steam Generator, The.. 12
Vanadium, Metallurgical Applications of 172
Vanadium in Steels, Influence of. Mr. H. H. Abram..... 150

W

Welds in Structural Steels..... 4
Works Research Service Scheme..65–68
Wire-making, Corrosion Resistance of Metals in..... 103
World Tin Consumption, Record Tinplate Figures..... 122
Water as an Engineering and Industrial Material 125
Work of Walter Rosenhain, The. By Dr. J. L. Haughton..... 138

Page

Z

Zinc in Chloride Solutions, Corrosion of. C. W. Borgmann and U. R. Evans.....22–23
Zinc Alloy Die Castings. E. A. Anderson G. L. Werley.....119

CORRESPONDENCE.

Copper Wire Scrap, Practical Handling of. A. G. Arend. A Special Correspondent..... 82

REVIEWS OF CURRENT LITERATURE.

Foundry Practice..... 16
German - English Metallurgical Dictionary, Part I..... 16
Engineer's Purchasing Guide 16
Hardness of Metals and Its Measurement, The 87
Carnegie Scholarship Memoirs, Vol. XXII. 87–88
Industrial Radiography 88
Arsenical and Argentiferous Coppers 126
Desulphurisation of Pig Iron..... 126

RECENT DEVELOPMENTS IN TOOLS AND EQUIPMENT.

Powerful Lathe for Boiler Drums.57–58
50-ton Buckton Universal Compound Lever Testing Machine.. 91
Testing Machine, A New High-speed Fatigue.....91–92
Speedomax Radiation Pyrometer, The 92
Black and Bright Steel-bar Plant Installation 123
Special Steel Warehouse 124
Centreless Grinding and Bright-drawing Department..... 124

RECENT INVENTIONS.

Rolling Discs 25
Cooling Sintered Material 26
Impact-testing of Cast Iron..... 26
Heat-treatment of Light Alloys... 59
Rolling Mills, Adjusting the Gap Between Rolls in.....59–60
Casting Light Alloy Pistons..... 60
Aluminium Alloys Containing Cerium 60
Welding Rods 60
Billet Heating Furnaces..... 93
Bright Annealing Alloys..... 93
Zircon Concentrates..... 93
Wire and Strip Furnaces..... 94
Treating Metallic Surfaces..... 94
Steel Props in Mines, Increased Use of 94
Conveyor Mechanism in Heat-treating Furnaces 127
Refining Steel 127
Furnace Conveyor Improvements.. 127
Normalising Furnaces 128
Coating with Metals..... 128
Heat-treating Silicon Steel..... 128

BUSINESS NOTES AND NEWS.

London Tin Corporation..... 27
Copper Mines, Developing Mufulira 27
Alloy to Replace Nickel-crome Resistance Alloy in U.S.S.R. New 27
